

# Paper Thimble Gauge

Finding thimbles that fit is definitely a challenge. The best tool to determine your correct thimble size is the professional quality [Thimble Gauge](#) made by the Lacis Museum of Lace and Textiles.

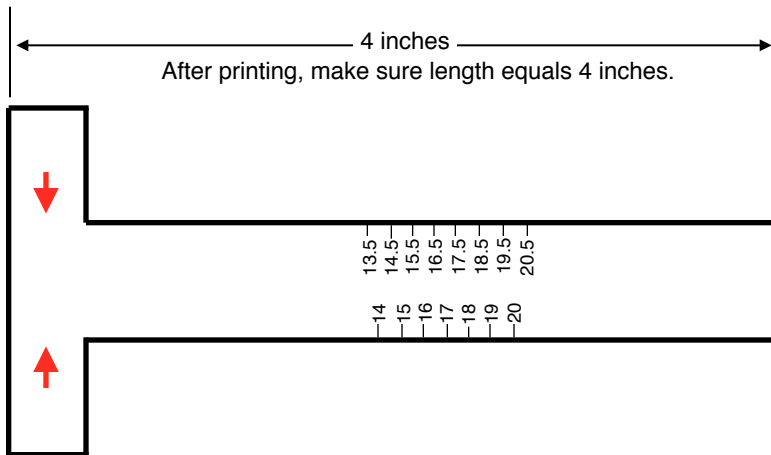

But even with a thimble gauge there is no guarantee a thimble will fit. That's because thimble sizes are not consistent. Even the same size thimbles within a

brand & style can vary in size and shape. That is why, regardless of the size marking, our shop sells thimbles measured by diameter in millimeters at the rim. So the Thimble Gauge made by Lacis is probably your best hope to find thimbles that fit.

The complimentary paper thimble gauge below will work as a quick and thrifty alternative to the

professional quality Lacis Thimble Gauge you can order at our online shop.

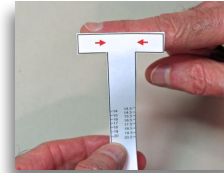

Just follow the easy instructions to determine the thimble size you need.

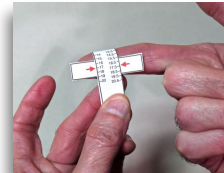

## Instructions:

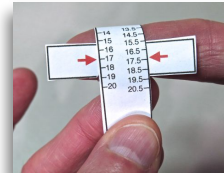

1. Print, then cut out thimble gauge pattern.

2. Place gauge on first joint of finger as shown in photo.

3. Wrap long end of gauge under and around finger, pull snugly.

4. Red Arrows point to your thimble size.
